OBJECTIVE

Recent Computer Engineering graduate with a solid foundation in frontend development (HTML, CSS, JavaScript, React) and core Java programming. Eager to contribute to innovative projects, collaborate with development teams, and grow as a software developer by creating impactful, user-centric applications.

WORK EXPERIENCE

Next Class

FrontEnd Developer Intern　　　　　　　　　　　　　　　　　　　　　　Jan 2025 - Jun 2025

• Developed front-end for an Edu-tech website, focusing on intuitive UI/UX and responsive design.
• Working on enhancing the admin panel for course management.
• Improving User experience, adding new functionalities, and optimizing performance using React.js and Tailwind CSS.

EDUCATION

GH Raisoni College of Engineering and Management Wagholi Pune

B. Tech (Computer Engineering) - 7.58 CGPA　　　　　　　　　　　　Aug 2021 - Jun 2025

PROJECTS

Blogs Website ↗
- Built a responsive blog website using React.js with dynamic API-based content and seamless multi-page navigation. Optimized performance through reusable components and efficient state management.

Ecommerce Website ↗
- Created a one-page React.js shopping site with real-time product data from APIs. Designed component structure, managed state with useState, and ensured responsive UI for smooth user experience.

Cybersecurity Portal for Effective Management of Server and Firewall
- Built a real-time web app to monitor server and firewall performance with alerts, dashboards, and role-based access. Developed a responsive frontend using HTML, CSS, and JavaScript, and integrated it securely with backend monitoring services.

SKILLS

Programming Languages : Java, C, C++, HTML5, CSS3, JavaScript, Tailwind CSS, SQL
Frameworks : React Js, Bootstrap, Node Js
Database : SQL, MongoDB, JDBC
Tools : VS Code, MySQL, IntelliJ, Postman, MongoDB Compass, Postman, Git/Github
Soft Skills : Time Management, Team Work, Quick Learner, Communication

CERTIFICATE

Java Course- Mastering the Fundamentals (Scaler Topics) ↗
